

Serving **UTAH** communities
through senior employment, transition services
for teens and young adults and early
intervention services for
babies and toddlers.

SERVICES:

- 520 children and young adults with autism and other disabilities received services in 2020
- 139 individuals with disabilities and disadvantages gained work experience and job training in our Salt Lake area Goodwill stores during 2019
- 409 older workers in our SCSEP program provided 157,637 hours of work in service to the general community during the program year ending June 30, 2020

SOCIAL BENEFIT:

"The early intervention team provided excellent guidance and tips that will continue to benefit our family. I'm a better, more informed parent because of their involvement."

- Breanna, Parent of Early Intervention participant

"I am overwhelmed with gratitude for the woman that my child has become; for the progress she has made and the independence she has gained!"

- Jenny Spadafora, Parent of Expanding Options and Workbased Learning participant.

ECONOMIC BENEFIT:

- 191 staff employed in Utah in 2020
- \$4,980,409 total salaries and benefits paid to employees in 2019 (most current numbers available)

Babies and toddlers with disabilities receive therapy and support services in their homes and via telehealth as part of our Early Intervention Services in Provo.

Teens and young adults with social communication disorders explore skills and interests preparing for future career opportunities through community and volunteer activities as part of our Transition Services.

... Together we create opportunities that change lives.
