

## SERVICES:

- 497 children and young adults with autism and other disabilities received services in 2021
- 57 individuals with disabilities and disadvantages gained work experience and job training in our Utah Goodwill stores during 2021
- 347 low-income seniors gained job skills to enable them to re-enter the workforce

## SOCIAL BENEFIT:

"The early intervention team provided excellent guidance and tips that will continue to benefit our family. I'm a better, more informed parent because of their involvement."

- Breanna, Parent of Early Intervention participant

"I drove truck for over 30 years, til an injury took me off the road. At 68, I wasn't ready to quit working and I wasn't sure my social security was going to be enough. Problem was I just couldn't find a job. Then a friend told me about SCSEP. With their help I have a great new career."

- SCSEP participant

## ECONOMIC BENEFIT:

- 213 staff employed in Utah in 2021
- \$7,688,711 total salaries and benefits paid to employees in 2021

Babies and toddlers with disabilities receive therapy and support services in their homes and via telehealth as part of our Early Intervention Services in Provo.

The Senior Community Service Employment Program (SCSEP) is helping low-income adults age 55 and older statewide to overcome barriers to employment and gain real-world work experience in order to re-enter the workforce.

... Together we create opportunities that change lives.
